

GRANT SEARCHES, APPLICATION AND REPORTING

Why use Enterprise Enrichment Consultancy?

Enterprise Enrichment will work with your school to source appropriate funding for specific projects.

With access to specific funding databases and extensive experience in grant and funding searches - success rates can be increased and dedicated time allocated to projects.

Application procedures and forms can either be complex or time-consuming and some of the key decision-making criteria might not easily be accessible. It can often be difficult to know how best to proceed with a particular application and how to improve the chances of success.

Understanding the process of gathering data to support applications and sourcing relevant documentation can be time consuming and difficult to analyse having to match specific funding requirement and objectives.

A consultant will have a huge impact on increasing the financial sustainability of your organisation and providing resources, one-off projects, and capital investment that can create a positive influence on academic achievement.

Examples of successful funding applications made and reported on have been for:

- **New school buildings** **£80k**
- **Major refurbishment projects** **£150k**
- **Community vocational project** **£40k**
- **Sporting organisation** **£225k**
- **Mini Bus for a Charity** **£27k**
- **Multi-Use games area** **£175k**

CONT'D OVER

Our Services

'Helping your organisation is our business.'

- We can prepare and complete a strategic business plan that will support a grant application or funding proposal
- Carryout extensive funding searches available to Enterprise Enrichment through licence
- We can work with you on the preparation of one or more parts of an application process
- Prepare and research a 'Needs Analysis' to support any application
- We can guide you through the various processes involved in submitting your applications.
- We can support you through the reporting and monitoring processes.
- Prepare financial reports and cash-flow spreadsheet to support the application
- Present strategy to stakeholders and use successes to market the school
- We can provide you with vital ongoing support and consultancy to increase your ability to gain funding.

Costs

Costs will vary according to the complexity of the project and an initial meeting will establish the requirements of the organisation and the work to be undertaken.
